# International Bar Association

the global voice of the legal profession

The **International Bar Association** (IBA), established in 1947, is the world's leading organisation of international legal practitioners, bar associations and law societies. The IBA influences the development of international law reform and shapes the future of the legal profession throughout the world. It has a membership of more than 45,000 individual lawyers and over 200 bar associations and law societies spanning all continents. It has considerable expertise in providing assistance to the global legal community.

Grouped into two divisions – the **Legal Practice Division** and the **Public and Professional Interest Division** – the IBA covers all practice areas and professional interests, providing members with access to leading experts and up-to-date information. Through the various committees of the divisions, the IBA enables an interchange of information and views among its members as to laws, practices and professional responsibilities relating to the practice of business law around the globe. Additionally, the IBA's high-quality publications and world-class conferences provide unrivalled professional development and network-building opportunities for international legal practitioners and professional associates.

The IBA's **Bar Issues Commission** provides an invaluable forum for IBA member organisations to discuss all matters relating to law at an international level.

The IBA's **Human Rights Institute** works across the Association to promote, protect and enforce human rights under a just rule of law, and to preserve the independence of the judiciary and the legal profession worldwide.
